

## ENVIRONMENTAL POLICY

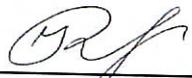

*The business is committed to providing a quality and environmentally responsible service to all of its customers and is committed to the protection of the environment. It operates to the ISO14001 Environmental Management System to provide evidence of its commitment.*

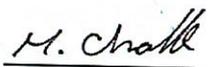

*Its business and environmental commitment aims to minimize the use of resources by, as applicable:*

- *Reduction;*
- *Re-use;*
- *Recovery (recycling), and*
- *reduce emissions to land, air and water by complying with all known environmental legislation and using 'Best Available Techniques' to eradicate problem areas, with the main objective of preventing pollution.*

*This will be achieved by reviewing current legislation and its use of resources, processes and emissions, and by promoting a continual improvement philosophy throughout all of its activities.*

*This policy will be made readily available to staff, members of the public and other interested parties.*
